Re: Village of Bald Head Island, NC – Beach Restoration Project

Dear Mr. Payne,

As Mayor of the Village of Bald Head Island, I would like to express the gratitude of the entire Village Council for the excellent work performed on behalf of our constituency by Norfolk Dredging Company over the last four months, or more. In that regard we greatly appreciate both the competency and professionalism of your company's staff involved in the undertaking from project management – to dredge operations – to the shore crew.

Without the timely performance of Norfolk Dredging in constructing the 1.5M cy beach fill project, it is clear that both private structures and public infrastructure would have been lost or severely damaged due to erosion. The tireless work of the company staff through often very difficult winter weather conditions reflects well on the firm's commitment to serve their clients.

On behalf of the citizens of Bald Head Island we again thank you for a job well done.

Sincerely,

Mayor Andy Sayre
