Re: Expression of Appreciation

Dear Mr. Payne:

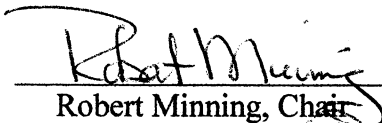

Please accept this letter on behalf of the citizens of Treasure Island as our expression of appreciation and gratitude for the efforts you, your staff, and your company provided in the renourishment of Sunset Beach. Considering the numerous impediments that were encountered in the form of "Ivan and Jeanne", the final product was a testament to your commitment and resourcefulness despite the odds. All we can say is WOW, are we fortunate.

Subsequent to your completion of the renourishment including the recreation of the dunes, the citizens of Treasure Island joined in a volunteer effort to plant some 35,000 sea oats along the entire section of renourished dunes. The finished project including the sea oat plantings is something all of us in Treasure Island are proud of as we hope you are also.

Thanks again, and best wishes for continued success.

Very truly yours,

City of Treasure Island – Beach Stewardship Committee
